DISCLAIMER: The data displayed on this map do not constitute a legal survey. Inaccuracies exist with some mapped parcel data and the CADL data. When seeking the definitive description of real property, consult the deed recorded at the local county courthouse.

Source: The parcel data was primarily developed by the Montana Cultural Database Project. It comes from a variety of sources including automated paper or Mylar maps, and some GIS geometry created by cartographers and decoders. For more information see the FGDC compliant metadata on the web (GIS data standards). Field hydro and rainfall data is from the U.S. Census Bureau's National Water Inventory. The boundary of the section shown on this map is based on the Bureau of Land Management's GDS files where coincident with a parcel boundary or on the TIGER files where not coincident.
