Here's the numbers: The 1st contract is \$30.85/acre 250.8 acres, the 2nd contract \$32.37/acre 50.3 acres and the remaining acreage is native cattle grazing property. Back in the days the entire 582 acres was a producing agriculture farm. There are many ponds and water holes located on this 582 acres which create an amazing water fowl hunting opportunity. The terrain is made of of many rolling hills and draws, which also creates excellent deer hunting habitat.

Someone could also see the excellent hunting opportunity from the many water holes and ponds for waterfowl or the rolling hills for great deer hunting habitat. The third option would be returning the property back into a producing agriculture opportunity.
