Thirty one years ago my parents made the decision to bring our family to Alaska. It all started with a vacation, and turned into a life style of many exciting and wonderful experiences! I have been able to pursue my passions of fishing, hunting and hiking. At age fourteen I was commercial fishing all over the state and also working in the family construction business. After having my own contracting business I transitioned into the real estate profession and have really found my niche. I can earn my living doing what I love - hiking and traveling around the state helping my neighbors with their real property needs while introducing new-comers to the most naturally beautiful place in the world - Alaska. My background in construction and personal knowledge of the vast state of Alaska have been valuable in my success in the field of real estate.
