**\$9,200,000**

- Agriculture, Big Game, Equestrian, Off-Road, River Frontage, Stream/River, Upland Bird, Wildlife Viewing

The 4,600 acre "Point Pasture" represents a unique and rugged portion of the historic Hermosilla Ranch. The Ranch can trace its origins back to an original Spanish Land Grant. Originally settled by Captain William Craig in the 1860's and later purchased by Civil War General Benjamin Butler, the ranch has a long history of farming and cattle operations.

The Point Pasture is framed by a flat top mesa at the confluence of the Huerfano and Cucharas River Canyons with dramatic and sweeping views of the canyon rims and river drainage below. The land offers a once in a lifetime opportunity to develop and carefully design a legacy property for ranching, recreation, conservation, or hunting pursuits. Step back in time as you explore some of the most wild and untouched canyon country in Southeastern Colorado. The land is not only visually stunning but these canyons have a rich and colorful history. The Ranch lies within the broad Chaquaqua Plateau which stretches through Southeastern Colorado. Native Americans and earlier hunter gatherer cultures such as the Apishapa called these canyons home and evidence of habitation can be found in the form of rock drawings, tipi circles, and cave shelters. The Apishapa lived on the canyon walls and farmed on the canyon floor.

**Land Attributes**

Building Improvements: None

Water Features: Several miles of winding Huerfano and Cucharas River Canyon along the boundary of the ranch. This river drainage is ecologically diverse with sub irrigated grounds, riparian plant and animal life, and is a protective haven for bird life and big game. The "Point Spring" which is evident on many old topographic maps still exists today. Located just below the canyon wall the spring emanates directly from a cliff cave and is still active. The water gravity flows down to several stock tanks for use of wild game and livestock. A new owner could renovate the piping for better productivity.

Unit 128 offers an extended OTC season for bull elk from mid-October to mid-November and numerous leftover “C” tags for cow elk are available for this unit each year.
